

Medical Imaging Techniques

1. Introduction

2. Radiography

3. Computed Tomography (CT)

4. Magnetic Resonance Imaging (MRI)

5. Positron Emission Tomography (PET)

6. Medical Ultrasonography

7. Conclusion

Vocabulary :

Compass -> boussole

Needle -> aiguille

Field -> champ

Beam -> rayonnement

Slices -> tranches

Sweeping -> balayage

X-ray -> rayon X

Iodine -> iode

Harmful -> nocif
